There’s only one prescription for the “Junior Jitters”...
...and it doesn’t look like this:

Don’t worry, though, we at Williams Baptist College have just the cure! Visit our campus on Friday, April 23rd and you’ll receive just what you need to help with your case of the Junior Jitters. Not sure if you have the Junior Jitters? The symptoms are obvious: headaches over finances, frustration with the unknown, worry about the future, and indecision concerning college paths. Basically the “Junior Jitters” can be defined as the brief period of indecision experience by a high school junior who is not sure about what to do with the rest of their life. So if you feel like this describes you, we invite you to attend Junior Jitters - the uncommon cure to a common problem.
